EDUCATION

MIPT, DREC (2024–2028, 2nd year)
GPA: 8.08/10.0

TECHNICAL SKILLS

Programming Languages:

- **C/C++** (STL, OOP, templates)
- **Assembly:** NASM x86-64
- **Python** (basic)

Tools:

- CMake, Make, Git, GitHub
- VS Code, Linux, Bash
- GDB, radare2, godbolt

EXPERIENCE

- IPC in Linux (pipes, signals, System V)
- ABI: system calls, cdecl, System V AMD64, memory layout

ABOUT ME

- Read "C Primer Plus" (Stephen Prata)
- Read "Computer Systems: A Programmer's Perspective" (Bryant, O'Hallaron)
- **Exploring:**
  - system programming (drivers, OS kernels)
  - compilers
  - cybersecurity
- Looking for an internship
- Taking Sber courses: Introduction to Tensor Compilers, Computer Architecture

LANGUAGES

Russian	Native
English	B2

PROJECTS

In Progress

TensorCompiler 2026
C++, ONNX, learning tensor compiler optimizations

PlayStation Portable 2026
C++, microcontrollers, Battle City-like game (aywert branch)

MIPTStudyOOP 2026
C++, OOP, simplified Objective-C and Python implementations

Snake 2026
C++, OOP, classic Snake game (MIPTStudyOOP/Snake)

Completed

SLR-Parser 2026
C++, bottom-up syntax analyzer for arithmetic expressions

MIPTStudyOS 2025
C, IPC practice

MyPrintf 2025
NASM, custom printf implementation in assembly

RESIDENT 2025
Assembly, resident program (DOS)

DIFFERENCIATOR 2024
C/C++, expression differentiator

PROCESSOR 2024
C/C++, CPU simulation

ACINATOR 2024
C/C++, Akinator game

STACK 2024
C++, stack data structure implementation

ONEGIN 2024
C++, text processing (Eugene Onegin poem)
