EDUCATION

MIPT FRKT (2024–2028, 2nd year)
GPA: 8.08/10.0

TECHNICAL SKILLS

Programming Languages:

- **C/C++**
- **Assembler:** NASM x86-64
- **Python** (basic)

Tools:

- CMake, Make, Git, GitHub
- Visual Studio Code
- Linux, Bash, GDB, radare2, godbolt

System Programming:

- IPC in Linux
- ABI: system calls, calling conventions

ABOUT ME

- Studied "The C Programming Language. Lectures and Exercises"
- Studied Randal Bryant, David O'Hallaron "Computer Systems: A Programmer's Perspective"
- Looking for a systems programming internship in C/C++
- Taking additional courses from Sber: Introduction to Tensor Compilers, Introduction to Computer Architecture

LANGUAGES

Russian	Native
English	B2

PROJECTS

Completed

Tensor-convolution 2026
C++, Implementation of two convolution algorithms: naive and Winograd. Comparison

SLR-Parser 2026
C++, Bottom-up syntax parser for arithmetic expressions

MIPTStudyOS 2025
C, IPC practice

MyPrintf 2025
Assembly (NASM), Custom printf implementation

RESIDENT 2025
Assembly, Resident program (DOS)

DIFFERENCIATOR 2024
C, Expression differentiator

PROCESSOR 2024
C, CPU emulator

In development

PlayStation Portable 2026
C++, Microcontrollers, Battle City-like game development (aywert branch)
